It's hard to know where to start with this fantastic home. Located just north of Mason City, this home offers both country living appeal and city proximity. To start, the main floor offers a large family room to entertain in family or friends, a large modern kitchen with tile backsplash and enough cupboards to fit any family. A huge island comes with the home but is removable if you don't like it. Formal dining room open to the large open layout living room. 3 bdrms on the main level that each have huge closets and one offers an adjacent half bath. The remodeled basement is truly a showstopper—featuring a spacious master suite with a full bath that includes a dual-headed shower, a separate soaker tub, heated floors, and stunning tile work throughout. The walk-in closet rivals the size of most bedrooms! A large family room offers the perfect space for entertaining, while the laundry room comes with extensive shelving for all you. 2 stall oversized garage. All on a hard surfaced road.
