Start 2026 in a home that's already done right. This move-in ready 3-bedroom, 2-bath ranch with a double attached garage sits on a quiet cul-de-sac with a great lot — the kind of location buyers are always hoping for but rarely find. Inside, you'll love the easy one-level living plus a spacious lower-level family room that's perfect for entertaining, movie nights, or creating a second living space. The lower-level laundry room offers plenty of shelving and workspace to keep everything organized and functional. Two partially finished lower-level rooms provide flexibility for a home office, guest space, workout room, or future bedroom —you get to decide how they fit your lifestyle. This home also brings serious peace of mind with major updates already completed, including: new roof, windows, plumbing, electrical, and central air (2020), plus a new Beaver waterproofing system and new sump pumps.
