This 2-bedroom, 1.5-bath ranch-style home offers incredible potential and just needs a little TLC to bring it back to its former glory. Featuring handicap-accessible main-level living, a huge kitchen with abundant cabinet space, a formal dining area, and a layout filled with natural light from numerous windows. Additional highlights include a 2-stall attached garage, front deck, back patio, and plenty of storage throughout. The basement offers excellent storage and the opportunity to add additional bedroom space with the installation of egress. Current photos along with virtually staged images are included to help you visualize what this home could look like with a little TLC. A fantastic opportunity to add value and make it your own in the New Year!
