Many recent improvements have been done on this charming Bungalow home, which also has the additional bonus of two garages with 3 stalls total! And if you are looking for a home with the character that an older home can offer... much of the Arts and Crafts style details and woodwork remain in this lovely home! A couple of those special details are the breakfast/dining area that is tucked in next to the kitchen and a sunny enclosed 6' x 23' front porch. So here are some of the important improvements that have been done within this last year: new roof and soffits, house foundation fixed, braced, and basement waterproofing system installed with new sump pump. The furnace is about 1 year old. The House and garages are newly painted as well. And there's more...but you should take a look for yourself! (876 sq foot is on the main level & additional is on 2nd level)
