LIFE FEELS A LITTLE MORE RELAXED BENEATH THE TREES OF WILDWOOD! Set in one of the area's most popular established neighborhoods, this character-filled home pairs original details with thoughtful updates. Hardwood floors & rich woodwork carry through light-filled living spaces, while the classic brick fireplace gives the living room a memorable focal point. The updated kitchen offers cabinetry, stainless appliances, a farmhouse sink, and loads of storage. The sunroom offers a bright retreat; the dining room has built-ins & a door to the deck. An updated bathroom adds modern function without losing the home's personality. Outdoors, the fenced yard was designed with pets in mind, complete with playful pup peek-a-boo holes & a dog run connected to the oversized detached two-stall garage. Just off the dining room, the patio & built-in fire pit set the scene for dinners outside and nights under the trees. Find your favorite corner, follow the hardwood floors, and let Wildwood lead you home!
