One-level living has never offered this much room to make life your own! Natural light fills the open kitchen, where skylights shine over abundant cabinetry, generous counter space and a center island ready for morning coffee or casual conversation. The adjoining dining area flows into the spacious living room, where a slider provides easy access to the rear patio. A separate bonus living area or office gives you even more room to make your own, complete with skylights and a slider to the side patio. Outside, the fenced patio creates a private place for container gardens, relaxing with a good book or enjoying quiet evenings outdoors. ADA-compliant doorways allow for easier movement throughout, while the bedroom offers a walk-in closet with built-in shelving. Separate laundry room, bathroom and an attached two-stall garage add daily convenience. Follow the skylights, open the patio doors and picture the possibilities—your next favorite place might be waiting right here!
