This property just doesn't quit giving in amenities! So much to offer - starting with the beautiful woodwork as displayed in the bay window, the grand open stairway and many lovely built ins and French doors. This kind of craftsmanship is hard to find and in this great shape. The large 132' x 146' corner lot with mature trees has plenty of room to enjoy for outdoor entertaining, gardening or plenty of room for kids or the puppies to play! Then there's a double garage PLUS an additional 20' x 36' shop/garage for storage or hobbies or whatever you want it to be! Master bedroom and bathroom & laundry are all on the main level and other bedrooms are on the second level, one of which does not have a closet. You will just need to view this sweet property for yourself and see what a gem it is!
